

With over twenty years of experience in construction risk management, Avant Insurance Managers offers the expertise necessary to help protect builders from the most complex risk exposures confronting construction companies today. Avant's Construction Solutions offer a complete risk management program from design to close-out. By utilizing both in-house expertise and third party on-site professionals to address risk factors, no exposure is un-addressed. The ultimate goal, beyond the identification of our clients' risk, is our clients' continual education to help prevent and eliminate future risks.

Avant's "short stack" infrastructure offers clients immediate access to empowered industry professionals with innovative solutions that redefine customer service. As a client oriented service company, the key to Avant's success is the accessibility of our staff and our direct accountability to meet clients' specialist objectives.

As an independent broker, Avant is able to access the vast resource of underwriters, both domestic and international, and place the ideal policy that meets our clients' risk management strategy in the most cost-effective manner.

As a risk management specialist, Avant Insurance Managers partners with our clients in identifying their particular goals and desired outcomes to create a program that meets the needs of our clients, rather than our clients working around underwriters. Our clients have access to our risk management teams to identify non-mainstream exposures that may exist and find win-win solutions, unlike take-it-or-leave-it policies.

By offering clients the most complete and cost-effective solutions, our goal is to establish long-term relationships that will carry on year after year. Avant's responsiveness, accountability, and commitment are the foundation of the Avant Insurance Managements' family.  
*Let the professionals at Avant work closely with you to design the right program to fit your desire for success.*
