

*The forefront of strategy and service*

Whether you are a boutique property or a world-class resort catering to the rich and famous, Avant Insurance Managers is capable of identifying your risks and securing the operational insurance programs to meet the risk protection required by your company, lenders, or owners associations.

Avant can help your property reduce its insurance expense by underwriting coverage to meet both regulatory and fiduciary coverage requirements. Avant can provide options of coverage structures to assure you are viewing the most cost-effective risk management program that meets your risk objectives.

It is our familiarity with the resort industry (hospitality and interval resort) that allows our policy placement experts to structure a risk protection plan that will be reasonably priced in the policy year and cost effective over the long-term because of lower claim costs.

Avant can apply claims management services, including claim mitigation that will, over time, further reduce your cost of insurance. Our aggressive claims management, including claim mitigation, can reduce your overall insurance expense. Let us show you how.

As a risk management specialist, Avant Insurance Managers partners with our clients in identifying their particular needs and works to create a policy that meets our clients' needs, rather than have our clients work around a policy. Our clients have access to our risk management teams to identify non-mainstream exposures that may exist.

By offering clients the most complete and cost-effective solutions, our goal is to establish long-term relationships that will carry on year after year. Avant's responsiveness, accountability, and commitment are the foundation of the Avant Insurance Managements' family. *Let the professionals at Avant work closely with you to design the right program to fit your needs!*
